KEY COMPETENCIES

- Problem-Solving
- Time Management
- Team Collaboration
- Critical thinking skills
- Excellent communication skills
- Project Management
- Attention to Detail

PROFESSIONAL EXPERIENCE

Netaxis IT Solutions

Nov 2025 – Mar 2026

Jr IOS Application Developer

- Developed mobile applications from scratch in collaboration with a team, contributing to end-to-end feature implementation and deployment.
- Worked on real-world applications including Gomeetify, Progen, MeetX, and PureFun.
- Implemented key features such as referral systems, live status updates, and real-time notifications using Firebase (Realtime Database).

Netaxis IT Solutions

Jun 2025 – Nov 2025

IOS Application Developer Intern

- Completed iOS development training at Netaxis Solutions, gaining hands-on experience in SwiftUI and app lifecycle management.
- Learned core SwiftUI concepts and built multiple projects during the training, which are available on my GitHub.
- Designed and implemented user-friendly mobile interfaces while following industry best practices.
- Developed practical skills through real-world projects and collaborative learning environments.

Andhra Pradesh Med Tech Zone

Dec 2023 – Aug 2024

IOS Application Developer Intern

- Motivated and detail-oriented iOS Developer with a foundational understanding of SwiftUI, Xcode, and UIKit.
- Skilled in developing user-friendly, responsive mobile applications and eager to contribute to a dynamic development team.
- Strong problem-solving abilities with a commitment to writing clean, efficient code.
- Passionate about continuous learning and excited to grow technical skills in a hands-on internship role.

Radiant Technologies Private Limited

May 2022 – Aug 2022

Python Developer Intern

- Contributed to a team project developing a password generator, gaining hands-on experience with Python programming.
- Learned core Python concepts and applied them to create a secure, functional tool.
- Demonstrated adaptability and commitment to expanding technical skills in a collaborative environment.

EDUCATION

Aditya Institute of Technology and Management

Bachelor of Technology – Electronics and Communication Engineering

CGPA: 6.1

Sri Chaitanya Junior College

Intermediate Education

CGPA: 7.8

FREELANCING

- Freelanced for startups and businesses, delivering custom mobile and web development solutions to enhance user experience and digital presence.
- Specialized in SwiftUI and UIKit for iOS app development, with additional experience in Flutter for cross-platform conversion.
- Designed responsive, user-friendly interfaces using Figma for both web and mobile applications.
- Also skilled in Python and Linux.
- Contributed to AI training projects by labeling datasets, evaluating model outputs, and supporting data preparation workflows.
- Managed Google Ads and Meta Ads campaigns to drive targeted traffic and improve ROI.

EXPERTISE

- Experienced in Linux environments, with strong skills in system navigation, command-line operations, and troubleshooting.
- Proficient in UI/UX design using Figma, focusing on intuitive interfaces.
- Skilled in Flutter for cross-platform mobile development and App Store deployment.
- Skilled in UIKit for creating interactive and visually appealing applications.
- Integrated third-party services including Razorpay and CallKit.
- Implemented Jitsi integration for audio and video communication.
- Built advanced user flows including video/audio-based user registration.
- Handled local data persistence using Core Data and AppStorage.
- Implemented Associated Domains (Deep Linking).
- Focused on building scalable and high-performance applications.
